

Existing Shorebird Program	Program Lead	Curriculum	Meets National Education Standards	Description:	Audience	Converted to Spanish/English/Other	Year Created	Networks with other Countries?	website link to download	Specific Contact
Shorebird Sister School	USFWS	Yes	Integrates many subjects. The curriculum is correlated with National Education Standards.	This is a multidisciplinary education guide for grades 2-12 from the Shorebird Sister Schools Program. It includes ideas for how to adapt for preschool, 1st grade, home school, youth groups, and nature center. This curriculum uses shorebirds as a focus for learning about wetland habitats, migration, and other cultures. The curriculum is integrated into many subject areas and is correlated to national standards. Download for free!	Students: PK-2, Students: Grade 3-5, Students: Grade 6-8	Yes - Spanish, English, Japanese and Russian	Starting in 1994, 17 schools from Alaska to California were connected to the shorebird information network. Eventually the network grew to include schools all across the USA and beyond to many Latin American countries, Japan and Russia. <u>CURRENT STATUS UNKNOWN</u>	Promotes	http://digitalmedia.fws.gov/cdm/ref/collection/document/id/1598	Ora Dixon Email: ora_dixon@fws.gov Phone: 304-876-7314

Students: PK-2, Students: Grade 3-5	Yes - Spanish, English only	Education materials created in 2006	Promotes	http://digitalmedia.fws.gov/cdm/ref/collection/document/id/1600	Ora Dixon Email: ora_dixon@fws.gov Phone: 304-876-7314
Migration Science and Mystery	Prince William Network	Yes	Yes - Lesson plans correlate to the national science, math, English language arts, history and social studies, and visual arts standards	Specifically, the educational objectives for students participating in "Migration Science and Mystery: A Distance Learning Adventure" are as follows: 1. Develop a basic knowledge of the life history and biology of shorebirds. 2. Understand that shorebirds rely on critical wetland habitats for their survival. 3. Learn that neotropical migratory birds face a diversity of challenges to their survival, and many of these challenges are human-dependent. 4. Appreciate that migratory birds are shared between different communities throughout the migration routes. 5. Understand the role of citizens, public land management agencies, and non-governmental organizations in protecting and conserving habitat. 6. Become motivated to take action in their own backyards to protect birds and their habitats.
