

ENROLLMENT IS NOW OPEN FOR AN **EXCITING NEW COURSE!**

**SHOREBIRD CONSERVATION**

**Habitat management, Coastal ecology, Identification & Monitoring,  
Community engagement, Conservation governance**

**ENVIRONMENTAL SCIENCES PREMASTER'S PROGRAM**

**WHEN:** Tuesday/Wednesday/Friday  
**DURATION:** December 3 - 13 (2 weeks)  
**TIME:** 4.00pm-6.30pm  
**WHERE:** Anton de Kom University

**Register for each session  
using the links on the  
following page!**

The course is open to all and is free unless you wish to receive elective credit or certification.

**In December 2019, Suriname celebrates 30 years of partnership with the Western Hemisphere Shorebird Reserve Network (WHSRN)**

The course is partly taught through webinar, in collaboration with Manomet, Inc., an NGO that uses an approach based on building relationships of trust to create change.

This course will emphasize the importance of stopover sites along migratory flyways for shorebirds, which run trans-nationally from North America to South America and vice versa.

**Expect to participate in informative & interactive group activities.**

## Course Details

**TITLE:** Shorebird conservation: Habitat management, Coastal ecology, Identification & Monitoring, Community engagement, Conservation governance

**WHEN:** Tuesday, Wednesday & Friday; December 3, 4, 6, 10, 11 & 13
